NEW & IMPROVED DESIGN

DI-TUBE 2.0

WHAT'S A DI-TUBE?

The DITUBE 2.0 operates on the mixed bed ion exchange principle making highly purified water available at minimum cost for even the smallest requirements.

WHO'S THIS FOR?

The DITUBE 2.0 is suitable for small scale use in laboratories, processing plants, battery service stations, hospitals, pharmacies and households etc.

CAPACITY

Up to 150 litres per full cartridge. Refilling is needed when resin changes from blue to brown.
